Bay Diesel Provides A Custom 300kW John Deere Diesel Generator For The USMMA Training Program

Chesapeake, VA – The USMMA is a federal service academy that educates and graduates licensed Merchant Marine officers. Located in Kings Point, NY the 82-acre campus lies on Long Island’s north shore and is operated by the Federal Government’s Maritime Administration, an agency of the U.S. Department of Transportation. Bay Diesel worked closely with the Maritime Administration to provide a custom 300kW John Deere diesel generator for one of their training programs. Bay Diesel added monitoring gauges to the unit that will give the students a hands on, interactive approach in identifying, diagnosing and fixing potential issues that can arise while out to sea. Each gauge controls a different part of the generator allowing the instructor to provide ‘real life scenarios’ to students during training.

About Bay Diesel Corporation

Established in 1982, Bay Diesel & Generator is a veteran-owned small business with offices in Chesapeake, Roanoke and Richmond. Bay Diesel & Generator specializes in diesel engine sales and repair for multiple national brands such as Generac, CAT & John Deere as well as generator sales, repair, and maintenance. The company is an Authorized Marine Dealer for Caterpillar through Carter Machinery, and the regional distributor for Generac Power Systems generators. For more information visit: www.baydiesel.com
